

## DisneyHand Reading Together

### Have a Blast!

#### **Share!**

Read together with a younger child (maybe your brother or sister) and use different voices for each character.

#### **Make Room!**

Choose a special spot in your home and make it your "reading zone."

#### **Be Ready to Read!**

Bring a book with you wherever you go—you never know when you'll have time to read.

#### **Check Them Out!**

Visit your local library—it has lots of books about the things you're interested in.

#### **Make It Fun!**

Play reading games in the car, like finding letters on street signs or billboards in the same order as the alphabet.

#### **You're the Author!**

Write your own story and illustrate it with drawings, photos or pictures cut from magazines.

#### **Be a Star!**

Get some friends together and act out your favorite story.

#### **Try Something Different!**

Read all kinds of things—try poetry, riddles or comic books.

#### **Be the Expert!**

If your family is going on a trip, look up the place you're going on the internet or at the library and read all about it.

#### **Make It Your Own!**

Make up a new ending to your favorite story.
