BEACH BINGO

**Play bingo using the beach around you
instead of boring numbers!**

(Don't worry — if you're not at the beach, you can still play at home!)

HOW TO PLAY

One Player is the caller and refers to the caller's list. Up to four players each gets a bingo card with common beach items on it.

If you're playing at the beach,
the caller looks around to spot one of the items listed. For example, if she sees an ice chest, she calls out "ice chest!" The players then look for that item on their cards; if they have it, they mark it as found. The caller moves to the next object, and the game continues until someone gets 5 in a row and shouts "Bingo!"

If you're not at the beach,
just use the call list and randomly pick items you see on the list. Don't look at anyone's card, so you can stay fair!

To raise the stakes, choose a prize before the game starts and play until someone gets best out of 5!
