

## Scarer of the Month Photo Frame

Ages preschooler

Do you have what it takes to be Scarer of the Month? Take a photo of your best Monster face and hang it on your fridge with pride.

### How to make it

1. Print the [frame](#) and [backstand](#) on regular paper or cardstock. Cut out the center window of the frame.
2. Tape a photo behind the frame.
3. Option 1 -- Fold the backstand along the center dashed line and glue the two sides together -- do not glue the tabs together. Butterfly the tabs outward and tape them to the back of the frame so the frame can stand up on its own.  
Option 2 -- Instead of the backstand, attach magnets to the back of the frame and place it on your refrigerator.

## Scarer of the Month Photo Frame
